Key Insights & Recommendations

Data-driven strategies for growth

Search Performance

With 2 clicks from 44 impressions, your CTR is 4.55%. This is performing well above average.

User Engagement

Users spend an average of 6 minutes on your site and view 4.2 pages per session. Strong engagement indicates quality content.

Mobile Optimization

38% of your traffic comes from mobile devices. Desktop remains the primary device - maintain strong desktop performance while improving mobile experience.

Priority Action Items

1. SEO Optimization

Focus on improving rankings for keywords currently in positions 5-15 to drive more clicks.

2. Content Strategy

Create content targeting high-impression, low-click keywords to capture more traffic.

3. Conversion Optimization

Implement goal tracking to measure and optimize conversion performance.

Report Summary

Your digital marketing performance at a glance

Overall Performance

60%

Based on search visibility, user engagement, and content performance

Next Review

We recommend reviewing your SEO performance monthly to track progress and identify new opportunities. The next report should be generated around 12/11/2025.
